

THE UNIVERSITY OF WINNIPEG

APPLIED COMPUTER SCIENCE

Course Number - ACS-1904-003

Course Name – Programming Fundamentals II

Instructor Information

Instructor: Prof. Sergio G. Camorlinga

Office: 3D29

E-mail: s.camorlinga@uwinnipeg.ca

Office Hours: Th: 16:00 - 17:00 p.m.
or by email appointment

Class Meeting Time: Mo, We: 10:00 am – 11:15 am **Room No:** 3D01

Lab Meeting Time (with teaching assistant): Fridays 9:45 am – 11:00 am or 11:00 am - 12:15 pm

Course Web Page: <https://courses.acs.uwinnipeg.ca/1904-003>

Instructor's Home Page: <https://www.acs.uwinnipeg.ca/scamorlinga>

Important Dates

First Class:	Jan 8 th , 2018
First Lab:	Jan 12 th , 2018
Reading Week (no classes)	Feb 18 th – Feb 24 th , 2018
Midterm Exam:	Feb 26 th , 2018
Final Withdrawal Date w/o academic penalty:	Mar 14 th , 2018
(A minimum of 20% of the work on which the final grade is based will be evaluated and available to the student before the voluntary withdrawal date)	
Last Class:	Apr 4 th , 2018
Last Lab:	Apr 5 th , 2018
Final Exam:	Apr 13 th , 2018 @ 9:00 am

Course Objectives/Learning Outcomes

This course examines more advanced programming concepts using the Java object-oriented programming language. Topics to be covered include major concepts of object-oriented design, inheritance, polymorphism, string/text processing, wrapper classes, searching and sorting algorithms, recursive programming, exceptions and advanced file I/O among others.

Evaluation Criteria

- Labs: 10%
 - There are 11 labs
 - The best 10 of 11 labs are taken into account
 - Each selected lab is worth 1%
 - Labs are completed during the Friday lab period.
 - Lab work and assignments are submitted via email to the lab assistant email either at 1904L-072@acs.uwinnipeg.ca (11:00 am - 12:15 pm) or 1904L-073@acs.uwinnipeg.ca (9:45 am – 11:00 am) according to your lab registration.
 - Lab report + code due date is the same date of the lab @ 11:59:59 pm. No late labs will be accepted after this time.
 - Lab reports are only submitted as pdf files and code as *.java files

- Assignments: 10%
 - All assignments are to be completed individually
 - There will be 4 assignments worth 2.5% each
 - May include theory, programming and/or analysis exercises
 - Due at 11:59:59 pm on due dates
 - No late assignment will be accepted, or under special circumstances accepted with 20% off for each late day
 - Assignments reports are only submitted by email as PDF (Portable Document Format) files and code as *.java files. The details of submission procedure will be stated in each assignment. See emails to submit in Labs section above.
 - Multiple submissions are not permitted. Students may submit a partially completed assignment, and will receive credit for those attempted problems
 - Combination of functionality, quality of design, programming style and documentations are considered for programming assignments
 - Problem solving and programming assignments are time consuming. Start early. Students are responsible for maintaining backups of their work
 - Students are responsible to review their assignments before submission to make sure the correct files are attached to the email

- Midterm Exam: 25%
 - The midterm test is during class time

- Final Exam: 50%
 - The final exam covers all material discussed in the course

- Class attendance: 5%
 - Criteria for points per class:
 - one class attendance = 1 point
 - no attendance = 0 point
 - 20 points or more gives the 5% maximum for this item. Less points are prorated e.g. 12 points achieved = 3% (12 / 20 * 5%)

Exam Requirements

- Photo ID at exam is required.
- You are expected to write the test/exam on its given day.
- No electronic devices (e.g. cell/smart phone, laptop, scientific calculators, translators, etc.) are permitted.
- Midterm and final exams are closed-book.
- Unless a medical certificate is provided, no accommodation is made for missed exams.

Final Letter Grade Assignment

Historically, numerical percentages have been converted to letter grades using the following scale. However, instructors can deviate from these values based on pedagogical nuances of a particular class, and final grades are subject to approval by the Department Review Committee.

A+	90+ - 100%	B+	75 - 79%	C	60 - 64%
A	85 - 90%	B	70 - 74%	D	50 - 59%
A-	80 - 84%	C+	65 - 69%	F	below 50%

Prerequisite and Restriction Information*

(This information can be found in the UW Undergraduate Academic Calendar)

- Requisite courses: ACS-1903 with a minimum grade of C
ACS-1904L (lab) must be taken concurrently

Email Communication

Emails from accounts at uwinnipeg.ca are usually not filtered by the UofW email filter. Thereby it is recommended electronic communication used for the course utilize a UofW email account to minimize the risk of filtering.

Services for Students

Students with documented disabilities, temporary or chronic medical conditions, requiring academic accommodations for tests/exams (e.g., private space) or during lectures/laboratories (e.g., note-takers) are encouraged to contact Accessibility Services (AS) at 786-9771 or accessibilityservices@uwinnipeg.ca to discuss appropriate options. All information about a student's disability or medical condition remains confidential <http://www.uwinnipeg.ca/accessibility> .

Students may choose not to attend classes or write examinations on holy days of their religion, but they must notify their instructors at least two weeks in advance. Instructors will then provide opportunity for students to make up work examinations without penalty. A list of religious holidays can be found in the 2017-18 Undergraduate Academic Calendar.

All students, faculty and staff have the right to participate, learn, and work in an environment that is free of harassment and discrimination. The UW Respectful Working and Learning Environment Policy may be found online at www.uwinnipeg.ca/respect .

Misuse of Computer Facilities, Plagiarism, and Cheating

Academic dishonesty is a very serious offense and will be dealt with in accordance with the University's policies. Be sure that you have read and understood Regulations & Policies #8, in the 2017-2018 UW Undergraduate Academic Calendar available at <http://uwinnipeg.ca/academics/calendar/docs/regulationsandpolicies.pdf>.

Additional information is available at University of Winnipeg library video tutorial "Avoiding Plagiarism" <https://www.youtube.com/watch?v=UvFdxRU9a8g>

Avoiding Academic Misconduct. Uploading essays and other assignments to essay vendor or essay trader sites (filesharing sites that are known providers of essays for use by others who submit them to instructors as their own work) involves "aiding and abetting" plagiarism. Students who do this can be charged with Academic Misconduct.

Avoiding Copyright Violation. Course materials are owned by the instructor who developed them. Examples of such materials are course outlines, assignment descriptions, lecture notes, test questions, and presentation slides. Students who upload these materials to filesharing sites, or in any other way share these materials with others outside the same class without prior permission of the instructor/presenter, are in violation of copyright law and University policy. Students must also obtain instructor/presenter permission before photographing or recording slides, presentations, lectures, and notes on the board.

Text Book(s) / Reading List / Tools

We will use the following books as guide, supplemented with readings throughout the course:

- Java with BlueJ Part 2
Ron McFadyen
University of Winnipeg, March 2016
Available at www.acs.uwinnipeg.ca/rmcfadyen/CreativeCommons
- Building Java Programs
Reges & Stepp
Pearson, 4th Edition 2017
ISBN 978-0-13-432276-6

- Starting out with Java – From Control Structures through Objects
Tony Gaddis
Pearson, 6th Edition 2016
ISBN 978-0-13-395705-1

Class notes and notices will be available on the course web page. Students are responsible for material covered in class and announcements made in class.

There are different IDEs you can use to program and test Java. We are going to use the following Java IDE software for our class:

- Eclipse IDE for Java Developers, Neon 3 Package
Available at <https://eclipse.org/downloads/packages/release/Neon/3>

Java Standard Edition Development Kit 8 or later (current version is JDK v8u151) will be used for our programming tasks. It is available at <http://www.oracle.com/technetwork/java/javase/downloads/jdk8-downloads-2133151.html>

Topics to be covered (Tentative)

1. Arrays (1 and 2 Dimensions)
2. Objects and classes (more advanced topics)
3. Text processor and Wrapper classes
4. Inheritance
5. Exception and advanced file I/O
6. Recursion
7. Sorting, searching and algorithm analysis
8. Advanced topics (databases, GUI apps)

Note that all topics listed may not be covered and may be offered in a slightly different time order.

Book chapters per topic table

	Gaddis' book	Ron's book	Reges' book
1.Arrays (1 & 2 Dimensions)	Ch 7	Ch 1,2	Ch 7
2.Objects and classes (more advanced topics)	Ch 8	Ch 4	Ch 8
3.Text processor and Wrapper classes	Ch 9	Ch 3	Ch 10,11
4. Inheritance	Ch 10	Ch 5,6	Ch 9
5. Exception and advanced file I/O	Ch 11	Ch 7,8	Ch 6
6. Recursion	Ch 16	Ch 9	Ch 12
7.Sorting, searching and algorithm analysis		Ch 10	Ch 13
8. GUI apps with JavaFX and Scene builder	Ch 15		
9. Databases	Ch 17		

Additional Course Related Information

1. When it is necessary to cancel a class due to exceptional circumstances, instructors will make every effort to inform you via uwinnipeg email, as well as the departmental assistant and Chair/Dean so that class cancellation forms can be posted outside classrooms.
2. Your uwinnipeg email address will normally be used for course related correspondence.
3. Please note that withdrawing before the VW date does not necessarily result in a fee refund.
4. April 5, 2018 is the class make-up date for courses that conflict with Good Friday, March 30.
5. No classes: Feb. 18-24 Winter Mid-term reading week; Friday, March 30 (Good Friday).
